A FULLY USER-TAILORABLE EVIDENCE MANAGEMENT & REPORTING SYSTEM

FileOnQ
Public Safety Platform

100% TAILORED BY YOU and FOR YOU… NO CUSTOM CODE

Gone is the cookie cutter, one-size-fits-all evidence management system. With EvidenceOnQ, you can fully tailor the data screen, fields, barcode labels, reports and more, to fit existing and future needs, at no extra cost.

AUTOMATED PROCESSES and NOTIFICATION

Every aspect of managing and maintaining property-evidence, data entry, searches and status have automated time-saving features.

UNLIMITED SEARCH and REPORTING OPTIONS

Your users can search by any data field combination, or create saved queries (searches) for virtually unlimited search options. Electronically generate any report in seconds, or create new ones to fit changing needs and demands.

RMS and DIGITAL EVIDENCE INTEGRATION

Seamlessly integrate with RMS, in-house systems and our digital evidence management solution (DigitalOnQ). DigitalOnQ allows you to easily capture, view, secure and manage ANY digital file type from one place.

WEB BROWSER ACCESS

Patrol personnel, crime scene search warrant teams, district attorneys and other entities can remotely access and manage evidence, and generate reports from a web browser.

DEDICATED CUSTOMER SUCCESS TEAMS with ON-GOING SUPPORT

You have an important job to do, and we are here to help you do it. As a FileOnQ user, you will have a dedicated team with real-world experience and expertise committed to providing you reliable, on-going training and support. Our goal is to help you achieve evidence management excellence!
